WHY CHOOSE THE ORDINARY?

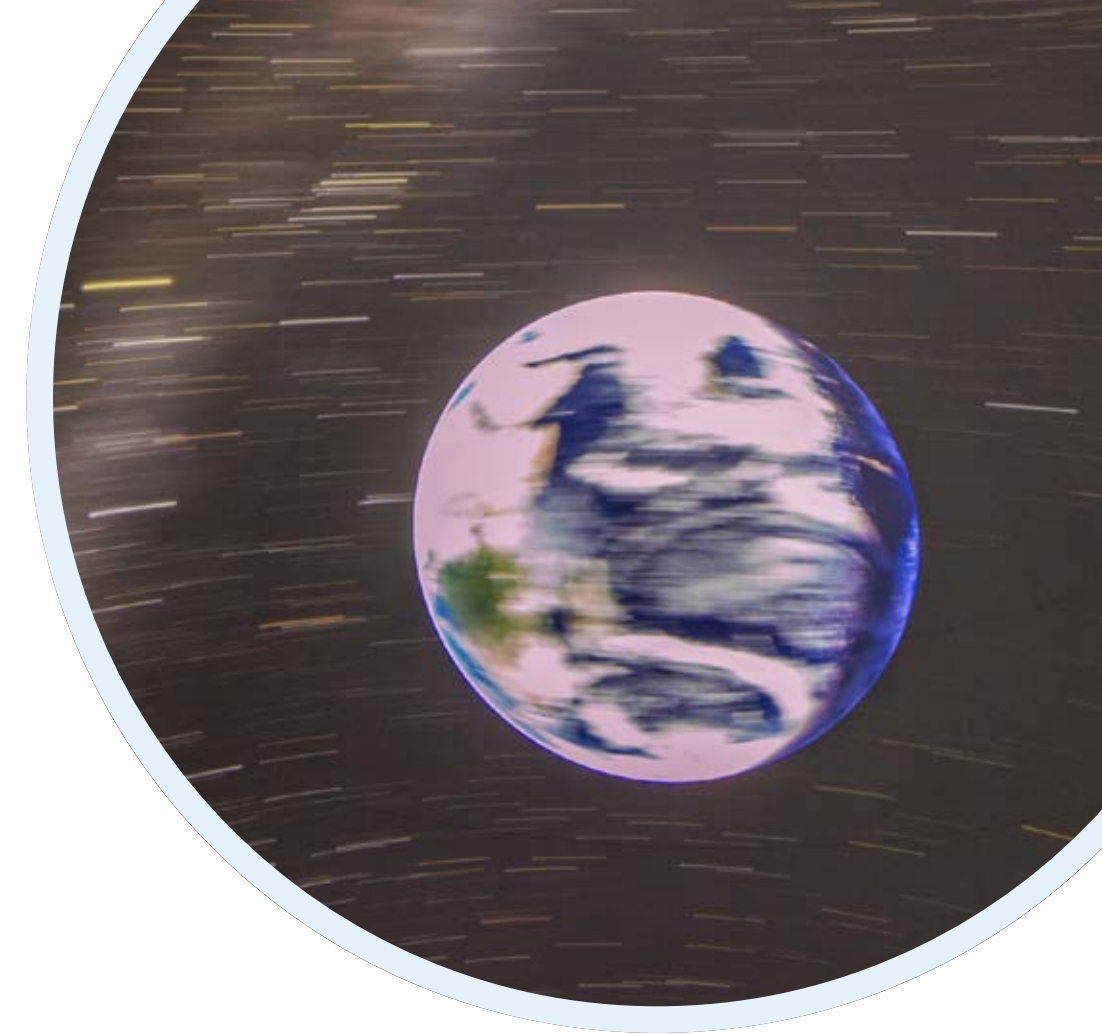

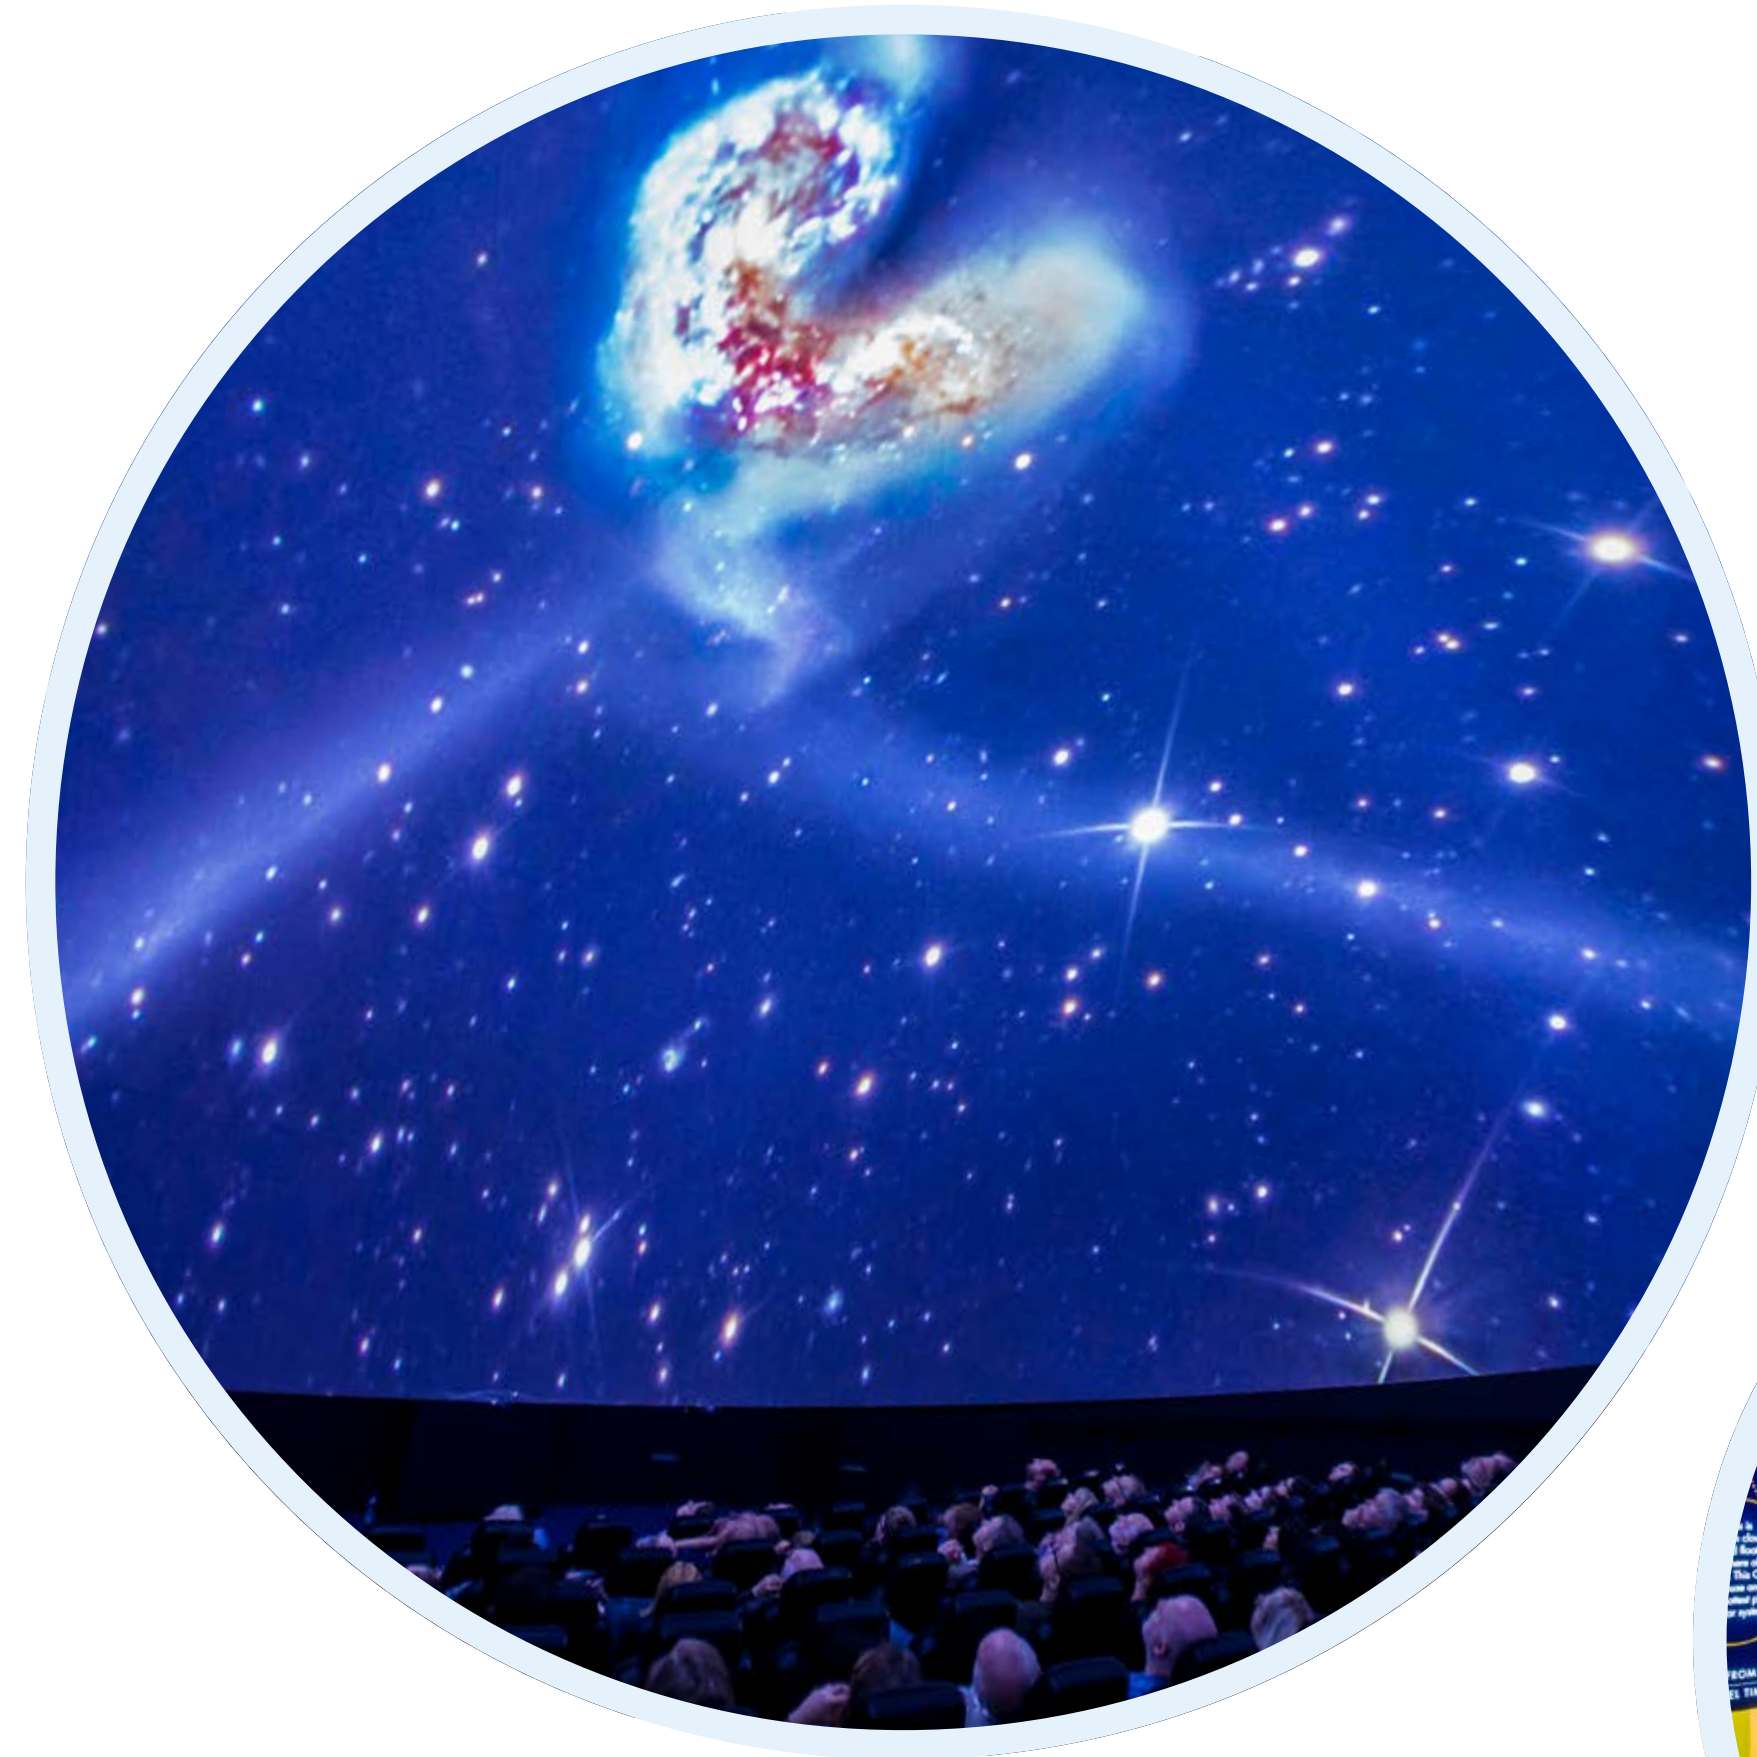

THE PLANETARIUM

Leave the earth and take a trip through the Universe, explore the rings of Saturn or travel to distant galaxies. Our Planetarium lets you connect with the cosmos and can hold up to 115 guests at any one time.

If you are having catering why not use our Space Zone before and after the show. Situated next to the Planetarium on the first floor with an excellent backdrop, allowing guests to lift off into the cosmos for the journey of a lifetime! Our Space Zone can hold up to 80 guests at any one time so if you have more than 80 guests let us know so we can check if another space is available.

Choose a location or a time for stargazing and this will show what the stars look like on your birthday or celebration.

Minimum Numbers 20 | Maximum numbers 115
