

Sunset on the Clyde

*You can walk all night trying to find that inspiration
you need for the one thing that you've been seeking
but nothing can come close to that one feeling
when you watch the sunset on the Clyde with me right now*

*It's hard to find the one thing you're looking for
They always say when you know you know
but I know
that I can show you the beauty of the city that we call Glasgow
when you watch the sunset on the Clyde with me right now*

*The beauty and the colours that all shine down
they beam up to the sky and create the angel's town
when we watch them, they'll be no reason to frown
when you watch the sunset on the Clyde with me right now*

*The feeling is unmatched from the sunset on the Clyde
the view so beautiful it's like a theme park ride
full of emotion but trust me that's what happens
when you watch the sunset on the Clyde with me right now*

*The sun beams down on the Clyde
so bright so clear
so strong so braw
the water looking all so clear
and that's not all*

*Now look just over there there's a box that's been painted
Every picture a different story but that's all expected
When it looks over the beautiful river, we call the Clyde
when the box sits over the sunshine on the Clyde right now*

*All stories are inspired from the sunshine on the Clyde
they all found the inspiration looking far and wide
They saw the colours so beautiful and you can too
when you watch the sunset on the Clyde with me right now*

*You can see the space snail leaving his intergalactic trail
it all tells the most beautiful tale he so looks far
trying to find the way home and you can
find him watching the sunset on the Clyde with me right now*

*One last thing to say about this beautiful story
the conclusion is yours to make when you see
the sunset beam down say what you see and finish the journey
when you watch the sunset on the Clyde with me right now*
