

What's On

Welcome to March of Curiosity, a month-long celebration of exploration, imagination and hands-on science at Glasgow Science Centre.

As we mark our 25th year of wonderment, we're inviting families, schools and lifelong learners to dive into a packed programme designed to spark wonder in every visitor.

Science Mall Day Visits

Wed – Sun throughout March

If you're looking for mind-boggling things to do, then look no further – as long as you're ready for an adventure.

Add-on £3.50

The Planetarium

Connect with the cosmos

Experience breathtaking journeys through the solar system and beyond in our state-of-the-art Planetarium with immersive 360° films and live presenter-led shows that bring the universe spectacularly to life.

Add-on £3.50

IMAX Mini Blockbusters

Short, immersive films

Experience thrilling 3D adventures on Scotland's biggest screen, from T.rex 3D's rip-roaring journey into the age of tyrants to Animal Kingdom 3D's spectacular encounter with six remarkable animal families.

Spectacular Shows & Workshops

Free entry with Science Mall ticket

Fantastic Forces

Live Science Show | Weekends | All Ages

Investigate Newton's three laws of motion through balloons, rockets, a bed of nails and other spectacular demonstrations in this fast-paced show that brings physics to life.

Meteorite Handling

Workshop | Weekends | Age 8 yrs+

Learn how to spot the difference between a meteor-right and a meteor-wrong as you explore these incredible rocks from space.

Cracking Communications

Workshop | Weekends | Ages 8 yrs+

Help solve the secret message and meet engineering experts as you explore the technology behind Wi-Fi and mobile phones.
