

Schools Programme

Day Visits

Weekdays | All Ages

Give your pupils an inspiring STEM day with hands-on learning in our interactive Science Mall and structured sessions designed to support Curriculum for Excellence.

Bring their learning to life with immersive IMAX films on Scotland's biggest screen, state-of-the-art Planetarium journeys, and thrilling, demo-packed live science shows.

Every activity is risk-assessed, planned with our team, and delivered by Visitor Experience Assistants who spark curiosity in every learner.

Curious About

9 & 10 March | P2 – S3

Free online events for your class exploring Space, Our Planet, The Human Body and Innovation.

Join live, expert-led sessions with partners including The Royal Zoological Society of Scotland, Dynamic Earth, Hitachi Energy, University of Edinburgh, and the University of Glasgow.

Access a wide range of **free resources** you can start using right away at curiousabout.glasgowsciencecentre.org

Live online sessions with experts and Q&A last around 30 minutes to easily fit in with school lessons.

STEM Fest

The Future Starts Now

19 & 20 March | P7 – S1

As part of Glasgow Science Centre's 25th anniversary celebrations, we're excited to invite you to **STEM Fest: The Future Starts Now**.

This special event brings together partners from across Scotland's leading STEM industries to mark 25 years of inspiring learning and looking to the future.

Pupils will have the chance to explore our dynamic STEM marketplace, meet experts working at the cutting edge of their fields, and dive into themes spanning engineering, renewable energy, marine conservation, and polar exploration.

To book and register your interest, or for more information on upcoming programmes, school memberships and costs, email:

bookings@glasgowsciencecentre.org

Learning Lab | Nursery – S2

Our Learning Labs cover topics including Space, The Human Body, Energy and Photonics for learners from Nursery – S2.

Each programme includes ready-to-use lesson plans, worksheets, videos, CLPL, interactions with experts, and a free Science Centre visit or On Tour experience.

Free spaces are available but limited, so to find out more and book onto our upcoming programme, email our team at: learninglab@gsc.org.uk
